• 4+ Years Experience • Open to Relocate

Summary

With 4+ years of software development experience at Altimetrik India, I specialize in building high-performance, responsive web applications using JavaScript (ES6+), React, and TypeScript. I am skilled in state management with Redux and React Context API, and practice test-driven development with Jest and React Testing Library to ensure code reliability. I focus on optimizing component lifecycle methods for enhanced performance and scalability.

Education

K.S.V.C.E.M (A.K.T.U) with 7.9 CGPA

Sep. 2018 – May 2021

B-Tech(Computer Science And Engineering)

UP, India

Technical Skills

Languages: Java, JavaScript (ES6+), TypeScript, GraphQL, HTML, CSS, SCSS, JSON

Frameworks and Libraries: React, Redux (Toolkit, Thunk, Saga), React Hooks, React Native (Ios and Android), JSX, Bootstrap, React Bootstrap, AntD, Tailwind CSS, Jest, React Testing Library

Tools: Visual Studio Code, Git, GitHub, GitLab, Postman, XCode, Android Studio, Jira, Figma, Chrome DevTools, ESLint

Others: MySQL, REST APIs, Agile, Debugging, Responsive Design, Cross-Browser Compatibility, Performance Optimization

Soft Skills: Problem-solving, Attention to detail, Communication, Team collaboration, Adaptability, Time management, Leadership, Critical thinking, Proactive learning

Experience

Altimetrik 🌐

(Bengaluru, Karnataka)

Software Engineer(SDE-1)

Jan 2022 - Present

Project - Talent Central Platform (July 2024 - Present)

- Spearheaded the development of the Talent Central Platform from **scratch**, delivering a dynamic and responsive UI with efficient state management **using Redux, ReactJS, and AntD**.
- Developed clean, efficient, and reusable optimized code, integrating front-end components with backend services through REST APIs in **JavaScript, TypeScript**.
- Collaborated with cross-functional teams to deliver high-quality software solutions, driving improvements in employee management, talent pool tracking, and job proposal functionalities.

Project - Lyami (Dec 2023 - July 2024)

- Developed and maintained the Lyamii tour and travel Application from **scratch** with an interactive interface in **React.js and TypeScript**, which led to **20%** increase in user engagement and **5%** boost in bookings within the first quarter of launch.
- Utilized state management libraries and integrated **Razorpay Payment Gateway** solutions, enhancing app functionality and facilitating a **30%** increase in successful transactions using **Redux, React Router and Bootstrap**.
- Collaborated with backend developers to seamlessly integrate Java APIs, resulting in a **20%** increase in data synchronization efficiency and streamlined processes.

Project - Putnam Investment (Jan 2022 - Dec 2023)

- Created an optimized responsive Interface from **scratch**, enhancing performance and user experience using **TypeScript, JavaScript (ES6+), React.js, and Redux**.
- Integrated RESTful APIs with backend teams, resulting in a **30%** improvement in data retrieval speed, ensuring seamless functionality and user experience using JavaScript and TypeScript.
- I actively addressed post-launch bugs, demonstrating my ability to identify the root causes of the majority of issues which results in Improved app performance and increment of **23%** in code coverage through code optimization, reducing load times and boosting resource efficiency.
- Conducted comprehensive testing with **Jest, React Testing Library and Postman** and utilized **SonarQube** for **100% code Quality** to ensure component reliability, smooth API integration, and minimize production bugs.
- Actively engaged in code reviews and **Agile** team collaborations, achieving a **100%** on-time delivery of project milestones over the last three quarters, while maintaining high software quality standards.

- Co-designed and developed a hybrid mobile application from **scratch** using **Dart and Flutter**, optimizing cross-platform performance and achieving a **20% reduction in load times**.
- Assisted in building an e-commerce web application using **React.js**, working collaboratively under mentorship to implement responsive UI components and streamline user flows.
- Performed over 50 code reviews and debugging sessions, collaborating closely with peers to identify and resolve issues, resulting in a **25% reduction in post-deployment bugs**.

Project

BookOcean [🌐] *React.js, Bootstrap, JavaScript, Html, Css, Scss*

Dec 2020 - Aug 2021

YumYum [🌐] *React.js, TypeScript, Html, Tailwind Css, Scss*

Feb 2025 - Apr 2025

Awards and Certifications

- **1 Pat-On-The-Back Award , 3 Cheers Award , 1 Kudos Award** — Altimetrik India
- Certification in Testing React with Jest and React Testing Library
- Oracle Java Certification - Pass the Associate 1Z0-808 Exam
- Flutter & Dart - The Complete Guide [2021 Edition]
- HackerRank Certificate - Java (Basics)
- HackerRank Certificate - Python (Basics)
